LITERARY NOTES.

The manuscript of Dickens's "Christmas Carol" is offered for sale in London for \$1,500.

"Rose Clifton" is the title of a new temperance story by Mrs. E. J. Richmond. It is published by the National Temperance Society.

A "Longfellow Birthday Book," to be handsomely printed and adorned with a portrait of the poet, will be issued by Houghton, Mifflin & Co., about February 27, Mr. Longfellow's birthday.

A second edition has been printed of Mr. Samue B. Bugglee's book of tables and maps, illustrating the agricultural progress of the Nation in cheapening the food of America and Europe."

Mr. Nahum Capen's "Reminiscences of Dr. Spurz beim and George Combe," contributed to The Paranological Journal during the past year, have been published in book form by Fowler & Wells.

A new edition of the late Dr. E. A. Washburn' " Social Law of God" is nearly ready at Thomas Whittaker's. It consists of a series of discourses on the Decalogue, and is prefaced by a sketch of the author's life and works.

"Electric Lighting by Incandescence," by William E. Sawyer (D. Van Nostrand), is an illustrated book by the well known electrician. It explains the principles of electric lighting and its application to interior illumination, and describes the new electric

The first number of the new series of The Library Journal makes its appearance, looking as neat as formerly and somewhat reduced in size. A new feature is a list, with brief critical notes, of books which are recommended to city and town libraries.

The historical students of Paris are gratified by the appropriement that the Bureau of History is preparing a new volume of documents in the possession of the State, which will contain a great number of letters by Cardinal Richelieu, never before pub

The Edinburgh and Quarterly reviews for January have made their appearance with Houghton, Mif-flin & Co.'s imprint, and may consider themselves naturalized Americans from this time on. Each has an able review of Lord Beaconsfield's " Endymion," and each devotes a liberal amount of space to books on the Irish question. The exhaustive review of Lord Campbell's memoirs, in The Quarterly, is offset by an interesting account of Prince Metternich's memoirs in The Edinburgh.

A sensational story comes from Berlin to the effect that the Countess Sophia Hatzfeldt, who died recently, left memoirs of her acquaintance with La Salle, and other Social Democrats. The story goes that during her last days in Wiesbaden, she dictated her memoirs to the editor of the suppressed Social-Democratic paper The Berlin Free Press, and instructed him immediately upon her death to convey her papers to Switzerland and publish them bere, so as to prevent the interference of her family.

An extended notice of Mr. Ruskin's "Arrows of the Chace" has already appeared in The TRIBUNE. It is only necessary to say of the American edition of John Wiley & Sons that it is a handsome book and contains two or three illustrations, including a fac-simile of a manuscript letter. The book is described as a collection of scattered letters written between 1840 and 1881, and for the most part published in the daily newspapers. They cover a great variety of subjects, and justify their motto taken from "Fers Clavigera," 1875: "I never wrote a letter in my life which all the world are not welcome to read if they will."

After the admission that "many American rare books are esteemed even in Europe," and that many American historical works are coveted by English collectors, The London News bewails that " people of taste in the United States are invading our markets with their long purses, and our treasures are slowly crossing the Atlantic, and gracing the bookshelves, the china-closets, and the cabinets of coins in the houses of Boston and New-York. Thus at Monday's sale of some of Lord Clare's books at Messrs. Sotheby's the Americans secured the cream of the collection. They were allowed to purchase a fine copy of the first edition of Shakespeare's Poems for £32. Was there no patriotic Englishman present to keep our Shakespeare's verses in their own native land ! Scotchmen basely allowed the original MS. of Scott's " Guy Mannering," to be purchased at the cost of £390, for America. We doubt whether the Freuch would so lightly have parted with the manuscript of one of their great authors. Horace Walpole's own copy of his "Anecdotes of Painting" went "to the Hurons," as the author would probably have said. This, again, seems to be a book we should have kent in England. But these possessions follow the money, and the Continental collectors find that they need all their wealth when they compete for rare Elzevirs with Americans and Rus-

WHAT BECAME OF CONSUL CAIUS.

From The London Telegraph.

In the neighborhood of Marseilles, not long ago, was discovered an ancient Roman burying ground, containing, among other interesting graves, that of Consul Caius Septimus, wherein a quantity of antique wear-pons and coins were found, and, necroover, an amphoratile inscription upon which was all but illegible—containing a small quantity of a chick, readish liquor. The amphora, empted of its contents, was submitted to the inspection of an eminent archeologist, who, after bestowing extraordinary pains upon the deciphering of the mutilated characters eagraven upon its surface, decrared it to be his applicant that they indicated the presence of genuine Fairmian within the vessel, anding that Caius S-pitmus, a dovial Consul of considerable repute as a judge of good wine, had obviously ordered that a flask of the best vintage in his ceilar should be buried with him.

of the best vintage in his ceilar should be buried with him.

The scientifile gentleman who had discovered the Consul's grave and taken possession of its contents, monitoring the true the true to the legal or fellowing question, at once started for Parls with ms Faierchan in a glaze decauter, and, there scrived, invited a dozen of ms friends, members of the Academy of Inscriptions, to a dimer at one of the leading restaurants. At desert he produced the "Consul's wine," carefully poured it note ting lequest glaises and handed it round to his greats, exhacting them to drick it, reversity and upstandiur, to the immortal memory of Caius Septimus. The grasses had soarcely been empified when a telegram was brought in by the bead-waiter on a solver, and had before the founder of the feast. He opposed and glanced at it, and then letting it fail upon the floor, fled from the room with a cry of terrible agony. One of the startied academicians picked up the message and read it about. It rate as follows: "Marsedies, 7.0 p. in. Don't drink contents of suppora, New Falerman at al! Have deciphered inscription on foot, which previously essaped my totice. Set liquid is the body of Consul Calin, liqueted by special embalming process." But the friendly warning came too inte. The archeologist and his academical celicagues had drunk up the Consul to his last drop.

New Unblications.

Conarineranin Notices.

OFFICE OF A. M. KIDDER & Co., BANKERS, NEW-YORK, Feb. 10, 1881. MR. WM. C. HILL is admitted a partner in A. M. KIDDER & CO. MINES AND MINING.

The mining share markets last week were more

SUNDAY, Feb. 13-F. M.

active than during any preceding week in the history of the New-York mining stock markets. While a good deal of irregularity was observable in the various movements, there were definite indications of an increasing public interest in mining enterprises. Several "pools" in different mining shares have been made up in the offices of prominent members of the New-York Stock Exchange, thus entisting in mining speculations a new, important and strengthening element. The changed position of affairs is further illustrated by the proposed action of the New-York Mining Exchange in regard to the value of its membership. The Board pow numbers 472 members. It is proposed to sell twenty-eight memberships to the highest bidders, the proceeds to be devoted to a building fund; and then to limit the number of membership to 500, except on payment of \$10,000 by each additional member. Prominent in the dealings of last week were the Mariposa shares, which advanced from 3 to 7 for the common and from 4 to 9 for the preferred stock. From these extreme prices there were reactions, but at the end their prices were firmer. The capital stock of the Mariposa Company is 100,000 shares of common stock and 50,000 shares of preferred stock, each of the nominal par value of \$100. The company's property consists of 42,000 acres of mineral lands. The purchases of the stock made last week were principally by a well-known firm, members of the Stock Exchange. Aside from the more favorable reports that lately have been received from the property, an incentive to the new movement is the fact that about one-half of both the common and preferred stocks has been surrondered by forfeiture for non-payment of assessments. So that the company holds in its treasury about 50,000 shares of common and about 25,000 shares of preferred stock, which to it is a capital rendering unnecessary further assessments. It also is proposed to reorganize the company under the laws of the State of New-York, making the stock non-assessable. The Leadville shares the stock non-assessable. The Leadville shares also were conspicuous in the dealings of the week and generally show handsome advances. Little Pittaburg rose to 84, but closed at 73 acrisist 69 testerday, and Little Chief advanced from 1.20 to 2.45 @2.40. Chrysolite was dull and closed the week with 4 loss at 64s, but Amee and Chimax are 10 and 24 cents higher at 60 and 71 cents respectively. Historia was largely dealt in and rose from 1.25 to 1.50 @1.45. Silver Cliff showed a large business from 4.69 up to 5.75. The California gold mines gradually advanced on investment demand until Green Mountain sold at 7@67s, against 6 a week ago, Rising Son at 3.30 against 2.90, Gold Stipe at 2.75 @2.85. Moose suffered a decline to 1.50 early in the week, but recovered to 1.70@1.65, and Husill rose from 1.45 to 1.60. The general market was equally strong with the stocks already named, but such stocks as Boston Consolidated, North Standard, etc., were weak all the way out. Never since the Mining Exchanges were established here has the prospect for a prosperous business in mining shares seemed as promising as now.

FOURTH CALL-2 O'CLOCK P. M.

CLOSING PRICES OF CALIFORNIA STOCKS. BAN FRANCISCO, Saturday, Feb. 12, 1881.

Thursday, Today.		. Thursday, To-day,	
Albba	1-7612-21-23-	Noonday	12 4 4 4 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1

IRY TELEGRAPH TO THE TRIBUNE.] LEADVILLE, Feb. 13.—Little Pittsburg has started a new up-ruse 120 feet north from the great strike, which will in a few days determine the extent of the ore body. The mine will be hoisting ore by Wednesday. the ore body. The mine will be hoisting ore by Wednesday. Hiberina has made a big strike in the north end, and is also getting fine ore from the Surprise shaft

and is also getting fine ore from the Surprise shaft to the south.

Chrysolite has increased its output, and is now averaging 40 tons daily. I visited the mine yesterday, and it looks well.

The Dunkin produced for the first ten days of February 207 tons, net value \$12,000; six months' not receipts to February 1 amount to \$165,247; expenses during same period, \$38,139—a net profit of \$127,108. I have just examined the mine. There is a large new ore body to the southeast from the shaft, and the mine generally is looking well.

The Robinson mine has just been examined by experts and attorneys. A suit is to be brought for an injunction by the Jacques party immediately.

The Glass-Pendery strike is north and near the Pendery shaft. Several upraises show an ore body above the former level and prove it to be continuous for 700 feet.

San Francisco, Feb. 13.—The market at the close

ons for 700 leef.

SAN FRANCISCO, Feb. 13.—The market at the close yesterday looked more promising for a gradual improvement in prices than it has for several weeks past. Hate & Norcross and Savage are the favorites among the Comstocks.

Samuel Linkton, a mining operator, has just re-

turned from an inspection of the mines in Taxonora District. Nevada, and says Grand Prize, Navada and Argenta show indications that new ore bodies are coming in.

Reports from Artzana continue good. There is great anxiety manifested here now by California mine operators to turn the tide of Arisons and Northern Maxico mining speculation to this city. Their ability to do so, however, is doubted, as they made themselves very unpopular in the early days of Arizona prospecting by refusing to advance money to develop the country. The rush to the Southwest promises to be greater this spring than during the Colorado boom.

George McAnery and John T. Boyd, of the Constention, are here on their way to visit the mine. John Roberts went to Mexico yesterday.

VIRGINIA, Ney, Feb. 13.—There were no reports of one extraction from the Bonanza mines during the past week—Sierra Nevada raised 92 tons yielding assays running from \$17 to \$105 per ton.

Hate and Norcross is now running cages and will commence pumping next Wednesday.

Ing assays running from \$17 to \$105 per ton.

Hate and Norcross is now randing cages and willcommence pumping next Wednesday.

Bullion valued at \$80,583 87 was received in
New-York on Saturday from the mines, making a
total for the week of \$234,872 89.

The total sales of mining stocks during the per
week at both exchanges are officially reported at
1,044,183 shares.

Forty-nine tons of ore were shipped from the
Chrysolite mine on February 11. The manager
telegraphs that the ore grades well this month.

The manager of the Little Pittsburg Company
writes, under date of February 5, in regard to the
late strike: "The ground unexplored in which the
strike is made is about 450 feet east and west, and
situated thirty-eight feet lower than any of the
Pittsburg workings. No explorations have been
made to the north, and none on this level to the
south? In regard to other development work he
says: "We have just got into very fine looking
iron in the bottom of shait No. 6. Pittsburg, which
assays from six to eight ounces sliver. We have
moved one engine from No. 4 to No. 2, Pittsburg,
intending to do all hoisting for No. 4 through No. 6
Pittsburg shaft. At No. 2 Pittsburg we have considerable fine mineral, which was maccessible to No.
4 without great expense in handling, and to accomplish this we were obliged to erect asmall temporary
building over No. 2 for cover to engine and for sorting ore." The manager incloses report of seventeen
assays of ore from the new strike showing an average of 360 ounces to the ton. A telegram dated
February 11 says: "Been obliged to stop breaking mineral; drifts full; no place to store it. Ore
house will be ready in five days, and work will
proceed. Everything looking well."

Mr. Wm. A. Le Row, well known in mining circles
in New-York and Boston, tellographs under date of
February 11, from the City of Morelia, State
of Michoacao, Mexico, while on his way to visit the
mines of the Michoacan Syndicate, that the reports
from these mines are magnificent, especially these
from the ch
